#### 1. Decision

To continue with a contract with Cascade3d to purchase equipment to enable Hertfordshire to continue with its Assistive Technology Offer until HCC is able to deploy its own end-to-end offer.

#### 2. Reasons for the decision

HCC has been piloting a new assistive technology offer using a third party (Cascade3d) hub as part of the technological offer. There are currently circa 140 residents using this third party hub and HCC is in the final stages of developing its own in-house assistive technology offer and are currently fixing the final few bugs in the new system. Once these bugs have been fixed all residents using the third party hub will be migrated to HCC's own offer. This decision is to enable time to fix these bugs, migrate residents to the HCC offer whilst ensuring the residents assistive technology service continues and is robust.

## 3. Alternative options considered and rejected

The only other option that was possible was to deploy the HCC developed hub earlier and work through the bugs whilst the technology was in situ. This would have resulted in the service not operating robustly resulting in a decrease in confidence and an increased possibility that residents would not be adequately protected and supported.

**4. Consultation** (see Summary of Requirements below)
